

Orchestrating resilient, responsible supply chains for complex systems

Rajasunath (Raja) Gondi

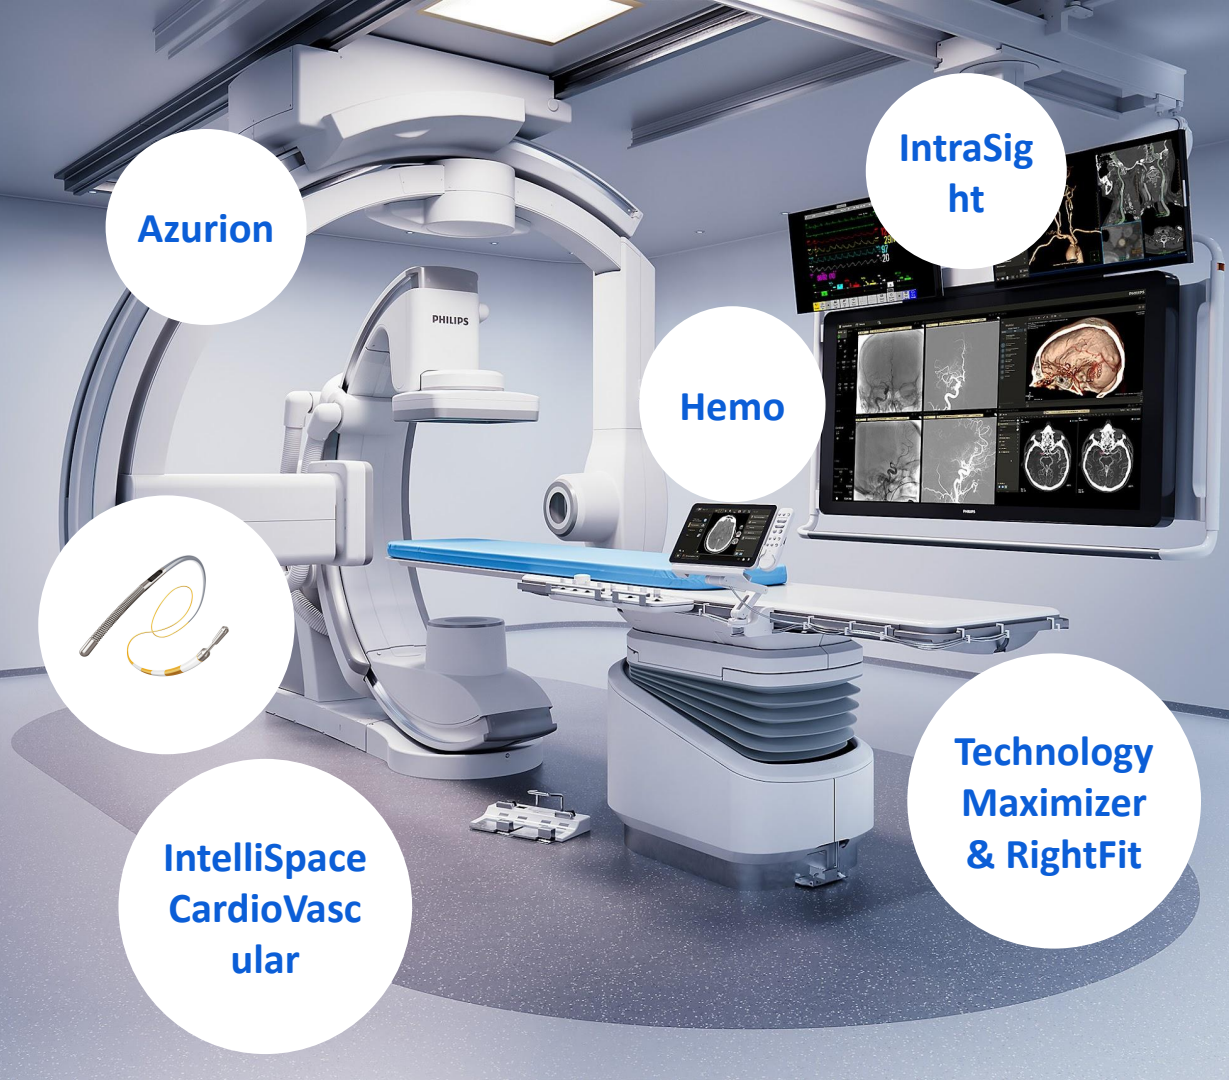

VP and Head of Supply Chain Image Guided Therapy

29 October 2025

With our Image Guided
Therapy solutions we are
touching the lives of
patients all over the
world

... one every second.

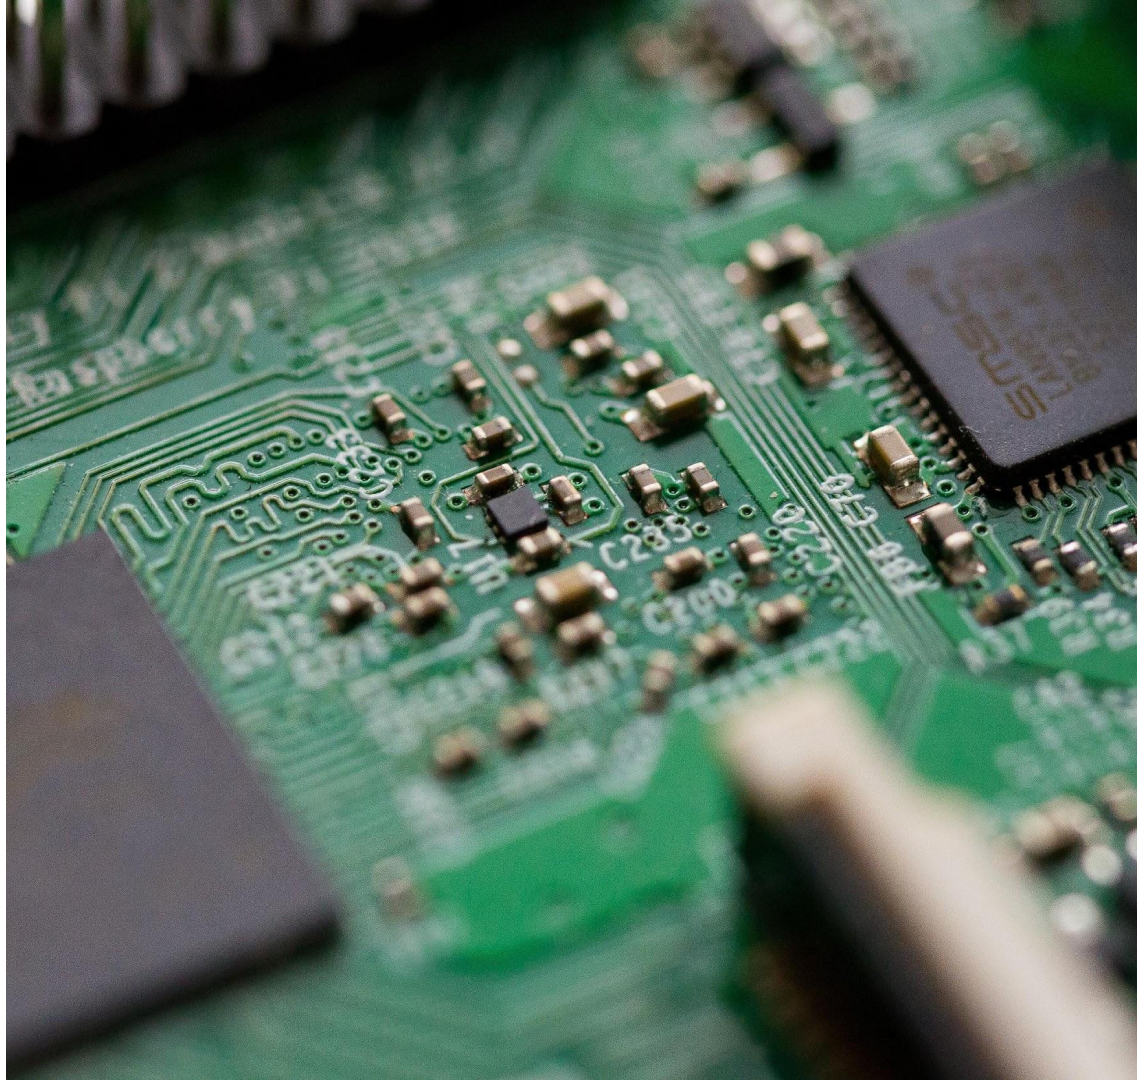

The Supply chain is critical to provide a seamless customer experience

integrating systems, devices, software and 3rd party equipment.

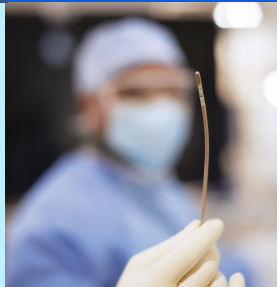

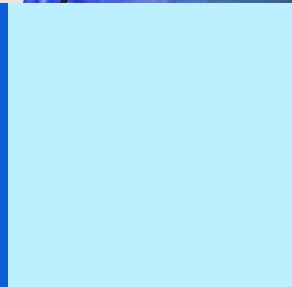

Where we were a few years ago

- Global disruptions
- Lack of material flow
- E-component shortage
- Technical debt
- Functional structure

From recovery to
seamless customer
experience and
competitive position.

We CARE:

- Customer centric
- Agile
- Resilient
- Efficient

From recovery

- Fully aligned to business needs
- Material flow
- Legacy debt

Take a holistic approach to shape the customer and supplier ecosystem together.

To seamless customer experience

- Invest in priority information flows
- Simplify catalogue
- Supplier ecosystem

Plan regular time to reflect and look at your (future) competitive landscape to enrich your strategy.

Orchestrating resilient, responsible supply chains for complex systems

- Stay focused on the end goal
- Bring simplicity in complexity
- Ideate and execute in concert
